Biosketch:

Taizo Hibi is the Professor and Chairman of the Department of Transplantation and Pediatric Surgery, Kumamoto University (Kumamoto, Japan). He graduated from Keio University (Tokyo) and completed his surgical residency and fellowships at National Cancer Center Hospital (Tokyo) and Keio University, and University of Miami (Florida, U.S.). Prof. Hibi has extensive experience both in surgical oncology, particularly in the hepatobiliary and pancreatic field, and abdominal organ transplant surgery. He and his international colleagues have established the concept of “Transplant Oncology,” a fusion of transplantation medicine and oncology, for eradication of cancer. Prof. Hibi has published over 170 peer-reviewed articles. He serves as an editorial board member of internationally recognized surgical journals and as a councilor of national and international academic associations and societies.
