

## **Olivier Soubrane, M.D.**

*Chairman, Dpt of Surgery  
Institut Mutualiste Montsouris  
Paris  
France*

Olivier Soubrane is Professor of Surgery and chairs the Department of Surgery in Institut Mutualiste Montsouris in Paris, France. He received his training in surgery in Paris, France, and a post-doc fellowship in liver transplantation with Prof. Carlos E. Esquivel in San Francisco, CA, USA. He previously chaired the Department of Surgery in Cochin Hospital, the Department of HPB Surgery in St Antoine Hospital, and the Department of HPB Surgery and Liver transplantation in Beaujon Hospital, all in Paris, France.

He has dedicated a significant period in research, leading a surgical research laboratory for ten years in Cochin Hospital and serving two terms in Surgery Committees for INSERM, the French National Agency for Research.

As academic surgeon, Olivier Soubrane is Member of the Editorial Board of Annals of Surgery and invited reviewer for several international journals including Journal of Hepatology, Annals of Surgical Oncology, Transplantation, American Journal of Transplantation, and EBioMedicine.

His research interest includes liver cancer, laparoscopic and robotic techniques for resection of liver tumors and live donor hepatectomy. He has reported the first laparoscopic left lateral sectionectomy in a live donor with Daniel Cherqui in 2002 and the first laparoscopic right hepatectomy in a live donor in 2013.

Founding member of the International Laparoscopic Liver Society (ILLS), Olivier Soubrane was co-President with Daniel Cherqui of the first world meeting held in Paris on July 6-8, 2017.
